

Dear _____,

Because you are not offering sustainably-raised meat and dairy products, I have decided to shop elsewhere. Industrial agriculture harms not only me and my family, but also negatively affects the animals, environment, and people who work on or live near a facility.

If you would like to start offering local, sustainably-raised and/or organic food, please visit the Eat Well Guide at www.eatwellguide.org for farms and retailers that sell sustainable meat and dairy. For more information on what sustainable food is, please visit Sustainable Table at www.sustainabletable.org.

I hope you will start to offer sustainable products so I can return and shop at your store.

Sincerely,

sustainable table
